Application Eligibility Considerations:

 - For new users of Grants.gov, see section E.2. of this document for information about steps required before submitting an application via Grants.gov.
- If the agency determines more than one version or substantially the same application has been submitted, the agency will only consider the last application submitted prior to the established deadline for purposes of the competition.
- An applicant organization may submit more than one application, not to exceed two (2) applications, for different projects or proposing different approaches.

Awards Eligibility Considerations:

- The agency will make awards only
 - to a single entity
 - for projects selected following the competitive review process (see section F.2.)
 - for projects that meet any specified cost share requirement (see item 3 of this section)
 - to entities that:
 - meet the eligibility criteria (see section B.) by the application deadline (see section A.6.)
 - are not debarred, suspended, or otherwise excluded from receiving Federal awards ([2 CFR 200.206\(d\)](#))
 - have an active System for Award Management (SAM) registration ([2 CFR part 25](#))
 - the agency does not determine poses an unacceptable risk related to proper management of a Federal award ([2 CFR 200.206](#))
- Awards are not Farm Bill incentive contracts and therefore, not limited by the payment limitation in [16 USC Chapter 58](#).

Project Participant/Agricultural Producers Eligibility Considerations:

- Any producer receiving a payment through participation in a funded project must meet the eligibility requirements of 7 CFR Parts [12](#) and [1400](#) and have control of the land involved for the period of performance.
- Any producer receiving a payment through participation in a funded project is subject to the Adjusted Gross Income (AGI) limitation. In addition, they must have an AGI that does not exceed \$900,000. Section 1704 (a)(3) of the 2018 Farm Bill states the Secretary may waive the AGI limit on a case-by-case basis if the Secretary determines that environmentally sensitive land of special significance would be protected as a result of such waiver. Awardees may request waivers once their project commences.
- Section 1240B of the Food Security Act of 1985, 16 U.S.C. 3839aa-2, prohibits duplicative payments. Accordingly, direct, or indirect payments cannot be made for a practice for which an individual or legal entity has already received funds or is contracted to receive funds through any USDA conservation program (e.g., Conservation Reserve Program, EQIP, Agricultural Management Assistance, Conservation Stewardship Program). If provided an award, the recipient must self-certify that payments to producers using Federal funding are not duplicative.

3. Cost Sharing

There is no cost sharing requirement for this opportunity. If cost-share is included in an application, it will not be considered during the competitive review process.

C. PROGRAM DESCRIPTION

The authorizing statutes and regulations for this opportunity are 16 U.S.C. 590a-590f, 590q, 7 CFR part 610 (No. 10.902).

The objectives of this program are:

- 1.. Provide conservation learning experiences and/or outreach activities related to conservation implementation to urban and underserved communities.
- 2.. Support The People's Garden Initiative at established People's Gardens by implementing conservation activities that cover one or more of the following:
 - a. Conservation and climate-smart agriculture demonstrations
 - b. Storm water control or water quality improvement

- c. Soil protection from erosion
 - d. Habitat for wildlife, including pollinators
3. Leverage non-federal resources to achieve positive natural resource conservation outcomes.
 4. Provide a method to follow-up with the historically underserved growers to measure rate of success of their participation in both technical and financial assistance by NRCS staff.
 5. Provide outreach to increase participation among historically underserved participants in NRCS conservation programs and services.

Historically underserved producers are defined as the following:

Beginning Farmer or Rancher is a farmer or rancher who has not operated a farm or ranch, or who has operated a farm or ranch for not more than 10 consecutive years, and who will materially and substantially participate in the operation of the farm or ranch. In the case of a contract with an individual, individually or with the immediate family, material and substantial participation requires that the individual provide substantial day-today labor and management of the farm or ranch, consistent with the practices in the county or State where the farm is located.

Limited Resource Farmer or Rancher is a farmer or rancher who has direct or indirect gross farm sales not more than the current indexed value in each of the previous two years, and who has a total household income at or below the national poverty level for a family of four, or less than 50 percent of county median household income in each of the previous two years.

Socially Disadvantaged Farmer or Rancher is a farmer or rancher who is a member of one or more of the following groups whose members have been subjected to racial or ethnic prejudice because of their identity as members of a group without regard to their individual qualities. Groups include, but are not limited to:

- o African Americans
- o American Indians
- o Alaskan Natives
- o Asians
- o Hispanics
- o Pacific Islanders

Veteran Farmer or Rancher (VFR) is a farmer or rancher who served in the United States Army, Navy, Marine Corps, Air Force, Space Force, and Coast Guard, including the reserve

components thereof, and who was discharged or released therefrom under conditions other than dishonorable and who also meets the definition of beginning farmer or rancher (BFR). The VFR must: a) not have operated a farm or ranch; or b) not have operated a farm or ranch for more than 10 consecutive years.

Funding, under this announcement is available as follows:

Cooperative agreements of \$5,000.00 to \$20,000 will be available to fund projects that align with the above project objectives. Financial resources are to be utilized for necessary supplies which can include tools, seeds, fertilizer, soil and soil additives, irrigation material, rain harvesting materials, temporary structures for plant health, and educational/workshop related materials.

Funding for gardening supplies and conservation activities are limited to established People's Gardens unless there is a demonstration/educational component involved as listed in the above program objectives.

Technical assistance by NRCS staff may be available to help determine site, slope, placement, etc.

The USDA People's Garden Initiative is a program launched in 2009 to promote community gardens, urban agriculture, and green spaces.

People's Gardens must meet the following criteria:

1. Join the People's Garden community by registering a garden at www.usda.gov/peoplesgarden.
2. Grow the garden using sustainable practices that benefit people and wildlife.
3. Teach about gardening and resilient, local food systems.
4. The intent is that these gardens result from a collaborative process among NRCS, other USDA agencies, conservation districts, and other partners. The gardens must be accessible to the public.

The New Jersey NRCS is a federal agency that works with the people of New Jersey to bring about effective conservation and sustainable use of land, water, wildlife, and related resources. The New Jersey Community Gardens/Farms Project is an effort to challenge local Conservation Districts, non-profit organizations, non-government organizations, and more to empower urban and underserved communities through conservation education and outreach. Through this project, New Jersey NRCS expects to improve our urban program delivery by assisting communities through demonstrations and outreach efforts to learn more about conservation and climate smart agricultural practices, all of which empowers communities and improves food security. The simple act of planting a garden or creating a pollinator habitat can help unite neighbors in a common effort and inspire locally led solutions to some of the challenges facing local communities within the

state. Addressing hunger and health, while inspiring beautification projects, a community garden can positively unite communities. As part of the USDA's Urban Agriculture toolkit, the New Jersey NRCS Community Gardens/Farms Project will provide technical and financial assistance to eligible entities to provide conservation educational experiences to urban and underserved communities as well as support the USDA People's Garden Initiative by helping established People's Gardens implement applicable conservation practices.

Eligible projects can be located in any New Jersey County. Entities must have control of the land (i.e. own/lease) where the project will be established for the duration of the agreement. The applicant is responsible for maintaining the project once it is installed for the duration of the agreement. Proposals will be screened for completeness and compliance under the provisions of this notice. Incomplete and/or noncompliant proposals may be eliminated from competition, and notification of elimination will be sent to the applicant. Evaluated proposals will be forwarded to the NRCS State Conservationist who will make the final selections.

Proposed projects must be performed in New Jersey.

- iii. Institutional background. (One (1) page narrative maximum.) This section should introduce your organization to the reviewer and lend credibility to your organization's ability to successfully manage a federal agreement. The response should be succinct, offer a good balance between quantitative and qualitative information, and be free of unnecessary verbiage. It should include a brief history of the organization, including its mission statement and objectives, important past events or accomplishments, a description of your clientele,

including demographic information, organizational funding sources. Describe your history of successfully managing these federal and non-federal agreements, including meeting and complying with reporting requirements, submitting final acceptable technical reports, and reporting on progress made in achieving the results under those agreements.

- iv. Partnerships. List and describe any partner agencies, groups, and other entities that may assist in implementing this project.

It is the justification for your proposal and should focus on the condition that your proposal will address. Use care to ensure your proposal make no unsupported assumptions. Your Needs Assessment should demonstrate the tie-in to the organizational mission and objectives, describe the issue or problem, and the history of, and need for, the proposed innovation, provide statistical and authoritarian evidence that clearly supports the need identified in the proposal and supports a high probability for success, and make a compelling case for the project funding based demonstrated client needs. Documents the problem or need with hard data, linking it to the funding source's priorities (See Section A: Program Description). What is the situation that is causing concern? Why is it happening?
- vi. Program objectives. (One (1)-page maximum. Identifies anticipated outcomes and benefits in measurable terms. How is the situation expected to change as a result of the award? This section of the proposal should demonstrate project outcomes, not project activities. You should be using language that supports increasing, decreasing, or reducing the problems identified in the need's assessment. This section should describe any impact on underserved communities. Avoid including topics that pertain to providing, establishing, or developing a method to address the problem. Your objectives should include at least one objective for each problem identified in the Needs Assessment. Each objective must be specific, measurable, achievable, realistic, and contain a timeline for completion. An example objective would be: At the end of the 3-day workshop, 70% of participants will demonstrate at least a 30% increase or better in pre/post-test exams. Be sure to describe how the outcomes will be measured.
- vii. Project geographic area/location of impact (where application activities will take place)
- viii. Methods/implementation. Describes the activities that directly support

the achievement of the objectives. A timeline may be included in this section as well as a description of staffing needs. This section demands clarity and justification in describing how the objectives will be met. Use care to present a reasonable number of activities that can be completed within the agreement period. Provide a detailed description of the how the project will be organized and managed. Include a list of key project personnel, their relevant education or experience, and their anticipated contributions to the project.

Your evaluation methods should determine the extent to which the program has achieved its stated objectives and the extent to which the objectives contributed to the program success. Further, your evaluation should determine whether the delivered program was consistent with the initial plan and identify which program activities individually contributed to the effectiveness of the program.
- x. Project Deliverables. Discuss reports/and or other deliverables that can help to measure project success. Use care to present a reasonable number of activities that can be completed within the agreement period. Clearly describe the program client and the program activities, their sequence, and explain your reason for choosing this combination of activities. Include a list of key project personnel, their relevant education or experience, and their anticipated contributions to the project. Explain the level of participation required in the project by government and non-government entities and identify who will participate in monitoring and evaluating the project.

The following documents do not count toward the above stated page limit.

APPENDIX C - Budget Narrative Guidance

All costs must comply with the cost principles of 2 CFR Part 200, [Subpart E – Cost Principles](#). All costs (both Federal and any required non-Federal cost-sharing/match) that are part of an award must be:

- allowable ([2 CFR 200.403](#)),
- allocable to the agreement ([2 CFR 200.405](#)), and
- reasonable in amount ([2 CFR 200.404](#)).

A thorough budget narrative will aid the administrative review and processing of a recommended award. Amounts included in a budget and budget narrative are estimates; in the event of an award, payments will be based on actual expenditures. The following is guidance for your use in preparing a thorough budget narrative. The guidance follows the order of the budget items.

COST-SHARING/MATCHING: If required, you must provide the information below for the Federal portion of costs and *separately* provide the information below with the same level of detail for the cost-sharing/matching portion, as applicable, as part of the budget narrative.

PERSONNEL – Only include employees of applicant organization

This category includes salaries and wages of personnel of the applicant organization (i.e., employees) that will be working directly on the project. For each individual, identify their role and describe their contributions to the project. Also include their annual salary, percent of effort, and the period of time they will contribute to the project along with the associated funds requested for support. The following format is an appropriate way to provide the information.

Mr. Jones – Project Director. Accountable for assuring that all project activities are carried out in a timely, cost-efficient and responsible manner. He will provide oversight of daily activities and lead and direct the project toward accomplishment of the objectives of the project. He is responsible for the submission of the required reports.

Salary	% effort	Project Duration	Funds Requested
\$50,000	25%	12 months	\$12,500

FRINGE BENEFITS – Only related to salaries identified under Personnel

Fringe benefits include, but are not limited to, the costs of leave (e.g., vacation, family-related, sick or military), employee insurance, pensions, and unemployment benefit plans. Also, see [2 CFR 200.431](#), Compensation-Fringe Benefits. Provide information about how fringe benefits are determined along with the amount requested.

For instance:	Amt. Requested
Fringe benefits - 25% of salaries and wages (\$12,500 @ 25%).	\$3,125

TRAVEL

Refer to your organization's travel policy for guidance on how to arrange travel. If your organization lacks a policy, it is expected that you follow the U.S. federal government policy, see <http://www.gsa.gov/federaltravelregulation>.

For the budget narrative, identify the total funds requested for travel. Provide as much detail as possible including purpose, destination, dates of travel, and number of individuals for each trip. If the dates of travel are not known, specify estimated length of trip. Identify what will be followed (e.g., organizational travel policies or government per diem rates).

The following are a few examples of how to provide the information.

- 2 people - travel to Washington D.C. once per year for a two-day meeting [identify purpose of meeting].

Airfare \$800 x 2 for airfare = \$1,600
Airport parking = \$64
Hotel for 3 nights x 2 @ \$200 = \$1,200
Meals for 2 days x 2 = \$24;
Rental car for 3 days @ \$110/day = \$330
Total for trip: \$3,439

- Local travel for project manager is calculated at .50 per mile throughout primary service area x 326 miles/month x 12 months = \$1,956.

EQUIPMENT

Equipment is defined as an item of property that has an acquisition cost of \$5,000 or more (unless the organization has established lower levels) and an expected service life of more than one year. List each item of equipment along with the applicable cost. Include justification of its need in accomplishing the goals of the project.

Example: To complete objectives #1 and #2, Refrigerated Trailer is required. XYZ Refrigerated Trailer, Model #123, at \$5,555

These costs should only include the costs to purchase new equipment. The cost of renting or leasing equipment is not to be included in this category but instead, include under the Contractual category. If equipment is costly, include a lease vs purchase comparison in the budget narrative in support of route chosen.

SUPPLIES

Supplies is defined in [2 CFR 200.1](#) as all tangible personal property other than those described in [2 CFR 200.1](#) Equipment. A computing device is a supply if the acquisition cost is less than the lesser of the capitalization level established by the non-Federal entity for financial statement purposes or \$5,000, regardless of the length of its useful life. Suggest also viewing [2 CFR 200.453](#), Materials and Supplies Costs, Including Costs of Computing Devices, regarding the allowability of costs.

Indicate general categories of expendable supplies including an amount for each category. Caution: If a category is viewed as too general or the associated amount is too high, further itemization may be requested. Therefore, use good judgement in determining the level of detail to provide.

Example:	General office supplies \$50/mo. x 12 mo. =	\$600
	Postage \$37/mo. x 8 mo. =	\$296
	Laptop Computer 1 x \$900 =	\$900
	Printer 1 x \$300 =	\$300
	Projector 1 x \$900 =	\$900
	Copies 8000 copies x .10/copy =	\$800

CONTRACTUAL

This category includes consultants, subcontracts, etc.

Consultants -- List the total costs for all consultant services. Identify each consultant, the services he/she will perform, total number of days, rate of pay, travel costs, per diem, and total estimated costs.

Contract -- A contract is defined in [2 CFR 200.1](#) as a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward (see §200.1 Subaward).

Explain the need for each agreement and how their use will support the purpose and goals of the project. For each contract, describe the associated activities, scope of work or services to be provided and how the costs were estimated. If budgeting for a procurement action, document if a solicitation process has occurred or if the contract will be a sole source.

Example:

- ABC Company: Training \$250/individual x 3 staff 5 days = \$ 750
- Amy White to provide Technical Assistant Services
 - 1FTE @ \$25,000 + 20% Fringe Benefits of \$5,000 = \$30,000
 - Travel at 2,000 miles @ .50 per mile = \$ 1,000
 - Training course \$ 175

Supplies @ \$42.50 x 12 months =	\$ 510
Telephone @ \$40 x 12 months =	<u>\$ 480</u>
	\$32,165

- John Doe, Consultant \$40 per hour x 220 hours for 12 month period = \$ 8,800
- To Be Announced Outreach Coordinator Annual salary \$30,000 x 10% level of effort/12 months = \$ 3,000

CONSTRUCTION

Construction efforts are to be included under this category with the same level of detail as described under the “Other” category below.

OTHER

Costs not fitting under one of the other categories are to be included under this category. The level of detail is to be commensurate with other categories. Subawards should be included in this category. Per [2 CFR 200.1](#), a subaward is an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Example: Outreach Workshop

Rental of facilities (\$750/2 days)	\$1,500
Information technology services	\$ 400
Training packets (approx. 125/\$40 each)	<u>\$5,000</u>
Total	\$6,900

Note: Percentage for contingencies is not an allowable cost.

INDIRECT

[2 CFR 200.1](#) defines *Indirect (F&A) costs* as those costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. To facilitate equitable distribution of indirect expenses to the cost objectives served, it may be necessary to establish a number of pools of indirect (F&A) costs. Indirect (F&A) cost pools must be distributed to benefitted cost objectives on bases that will produce an equitable result in consideration of relative benefits derived.

This cost category guidance includes several components:

- Calculation (This is to be included as part of the budget narrative)
- Indirect Cost Rates
 - Negotiated Rate
 - 10% De Minimis Rate
- Limitation (i.e., indirect cost cap)

- Unrecovered Indirect Costs for Cost-sharing/Match
- Voluntarily Reduce/Waive

Calculation.

If indirect costs are requested as part of the proposed budget, you must provide details used in determining the indirect costs requested. For instance, provide the calculation specifying the amounts used in applying the base (the base specified in the applicable rate agreement) by the applicable rate (see indirect cost rate info below as well as Limitation section). The calculation can be displayed in different formats but must capture the components (i.e., amounts used in applying the base and the applicable rate).

EXAMPLE 1: For purposes of this example, the recipient uses the 10% de minimis indirect cost rate (10% of Modified Total Direct Cost (MTDC)). MTDC means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward. MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs and the portion of each subaward in excess of \$25,000.

	<u>Budget</u>	<u>Indirect Eligible Amounts</u>
Salaries and wages	\$50,000	\$50,000
Materials and supplies	3,000	3,000
Equipment	5,500	-0-
Subaward	30,000	<u>25,000</u>
		$\$78,000 \times 10\% = \$7,800$ Indirect Costs

EXAMPLE 2: For purposes of this example, the recipient has a Negotiated Indirect Cost Rate Agreement (NICRA) of 20% with a base of salaries and fringe benefits.

	<u>Budget</u>	<u>Indirect Eligible Amounts</u>
Salaries and wages	\$50,000	\$50,000
Fringe Benefits	10,000	10,000
Materials and supplies	3,000	-0-
Equipment	5,500	-0-
Subaward	30,000	<u>-0-</u>
		$\$60,000 \times 20\% = \$12,000$ Indirect Costs

Indirect costs may only be recovered if the non-Federal entity has one of the following indirect cost rates.

1. **Negotiated Rate:** If the organization has a *current* NICRA established with the cognizant Federal agency (the agency that provides the most funds to the organization), then

provide a copy of the NICRA; expired rates are not acceptable. If unable to obtain a current negotiated rate from the cognizant agency, you are permitted to opt to use the 10% de minimis cost rate (you may only be reimbursed for allowable direct cost). Violation of cost accounting principles is not permitted when re-budgeting or charging costs to awards. Rather, costs must be consistently charged as either indirect or direct costs. Along with a copy of the NICRA, include the rate and base as part of the budget narrative.

Example: Rate 24.87% of MTDC - 24.87% applied to the following items: \$97,300 of Personnel, \$23,352 of Fringe, \$110,000 of other, and the first \$25,000 of three (3) subawards = \$76,015.65 indirect costs

2. **10% De Minimis Cost Rate:** In accordance with [2 CFR 200.414\(f\)](#), any non-Federal entities, unless excepted, may elect to forgo calculation of an indirect cost rate and request a 10% de minimis indirect cost rate. The 10% de minimis rate is applied to modified total direct costs (MTDC). For this purpose, MTDC means total direct costs related to the award, such as direct labor, fringe benefits, materials and supplies, publications, consultant services and travel costs. MTDC excludes the following costs: equipment, capital expenditures, participant support costs and the portion of each subaward and subcontract in excess of \$25,000. Violation of cost accounting principles is not permitted when charging costs to awards. Rather, costs must be consistently charged as either indirect or direct costs.

If the 10% de minimis option is chosen, it must be used consistently for all Federal awards until such time you choose to negotiate for a rate, which you may apply to do at any time. If the organization previously opted for the de minimis rate, a copy of the rate agreement must be provided. If the organization is currently electing the de minimis rate, use an indirect cost rate of no more than 10% of MTDC when preparing the budget. If selected for award, a de minimis rate agreement will be executed along with the award, as appropriate.

Example: Rate 10% of MTDC – 10% applied to the following items: \$45,000 of Personnel, \$10,800 of Fringe, and \$59,000 of Other = \$11,480 indirect costs

Limitation: Some programs may not allow the recovery of indirect costs. In such instances, the limitation flows down to subcontractors. Refer to the applicable notice of funding opportunity to determine if indirect costs are unallowable.

USDA appropriation acts limit indirect costs to 10 percent for cooperative and contribution agreements with nonprofit entities; for purposes of this limitation “nonprofit entities” includes institutions of higher education. For agreements subject to this limitation first apply the 10 percent indirect cost rate to the agreement’s total direct costs; this is shown on line 6.i of the SF424A. Then calculate indirect costs using the rate and the direct cost application base specified in the recipient’s NICRA. Use whichever rate results in the lower amount.

If the organization has a NICRA, both the NICRA calculation and the 10% TDC must be completed in order to determine the lesser (i.e., maximum allowed indirect costs) for the applicable project.

Calculation instructions: First, multiply the NICRA rate by the base stated in the NICRA to arrive at Amount A. Next, multiply the statutory limit of 10% by TDC to arrive at Amount B. The lower of Amount A and B is the maximum amount of allowable indirect cost, therefore include this amount on the budget.

Unrecovered Indirect Costs for Cost-sharing/Match: 2 CFR 200.306(c) provides,

“Unrecovered indirect costs, including indirect costs on cost sharing or matching may be included as part of cost sharing or matching only with the prior approval of the Federal awarding agency. Unrecovered indirect cost means the difference between the amount charged to the Federal award and the amount which could have been charged to the Federal award under the non-Federal entity's approved negotiated indirect cost rate.”

Voluntarily Reduce/Waive: A recipient may voluntarily reduce or waive recovery of indirect costs at its sole discretion and must not be encouraged or coerced in any way to do so by the agency. If organizations waive indirect cost recovery and request only direct costs, the organization is required to include in the award budget only those types of costs consistently treated as direct costs by the organization.
