

U.S. Environmental Protection Agency							
2022 Clean School Bus Rebate Program: Prioritized Applicants List							
Note, If a cell says "Not in NCES" then the district does not appear in the NCES data used to determine whether a district was rural. If a cell says "Not in SAIPE" then the district does not appear in the SAIPE data used to determine the percentage of students at the district who live in poverty. Because the district is already prioritized under another category, the applicant does NOT need to self-certify that it should be prioritized as high-need on the application.
